Education

B.Tech in IT (AKTU)

Nov 2023 – July 2027

ABES Engineering College

Class 12th (CBSE)

2023

JINGLE BELLS PUBLIC SCHOOL BAREILLY

Class 10th (CBSE)

2021

JINGLE BELLS PUBLIC SCHOOL BAREILLY

Technical Skills

Developer Tools: VS Code, Git & GitHub, Postman, MongoDB Compass, Firebase, Android Studio, Expo, Vercel, Railway, Docker (Basics)

Skills: DSA (Python), MERN Full Stack (React.js, Node.js, Express.js, MongoDB), React Native, AI Agentic Workflows, API Integration

Internships

Data Structures & Algorithms (Python) — Forage

JAN 2026

Remote • Project Simulation

Remote

- Implemented algorithmic problem-solving tasks using Python for real-world scenarios
- Completed challenges on arrays, recursion, hashing, dynamic programming, and optimization

React Native App Development — Forage

JUNE 2026

Remote • Project Simulation

Remote

- Built cross-platform UI components using React Native and Expo
- Implemented API integration, navigation flow, and state management (Redux/Context)

Projects

Academia 077 (Smart Student Assistant App)

OCT 2025

- Developed a lecture-note generator: records audio, sends it to an AI model, and converts it into structured notes
- Built an attendance-tracking system that automatically calculates present/absent percentages

Krishna07 – Bhagavad Gita AI bot

SEPT 2026

- Created an interactive chatbot where animated Krishna answers user questions from the Bhagavad Gita
- Integrated LLM-based response generation with spiritual context grounding

Saksham07 – Student Career Guidance AI

NOV 2026

- Built an AI-powered assistant providing career assessment and personalized study recommendations
- Implemented a Shorts-style recommendation system that shows relevant YouTube-style career videos

Achievement

GATE 2027

Appearing in Computer Science

Certificates

Data Structures & Algorithms (Python)

DEC 2025

Udemy

React Native Mobile App Development

MAY 2026

Udemy

Agentic AI & LLM Automation

JULY 2026

Udemy

Extracurricular

Open-Source Contributions (Beginner Level)

JUN 2026 - PRESENT

- Contributed to documentation, issue reporting, and beginner-friendly fixes in open-source GitHub repositories.

Unstop

JUN 2026 - PRESENT

- Organized events such as WEB BATTLE, showcasing technical challenges and electronics projects.
